BOLOUP APP AGENCY'S COMMISSION STRUCTURE

1. Commission earned from hired Hosts:

1.1 When a host on Boloup gets a gift, you earn money in two ways:

- **Host Commission:** You receive a commission on the total value of gifts your hosts earn. This commission can be as high as 20%. The exact percentage you get each day depends on how many diamonds all your hosts have earned in the last 30 days (excluding today).
- **Gift Sharing Commission:** You also get an extra 15% of the diamonds from each gift shared in a party room.

Here's a simple example:

Imagine a host gets a gift worth \$10.

- The host keeps \$6.50 (65%).
- As the agent, you receive an additional \$1.50 (15%) from the gift sharing.
- You also get your regular commission. If your rate is 20%, you get another \$1.30 (20% of the host's \$6.50 share).

So, for that single \$10 gift, your total earnings are $\$1.50 + \$1.30 = \$2.80$. That's a total of 28% of the gift's value, which is a very high rate compared to many other apps.

App	The host receives gifts	Host Income (\$)	Agent income from gifts (\$)	Agent income from agency commission (\$)	Total income for agent (\$)	Total gift share (\$)
BoloUp	100k coins (10\$)	6.5	1.5	1.3	2.8	9.3
Poppo live		7	0	1.4	1.4	8.4

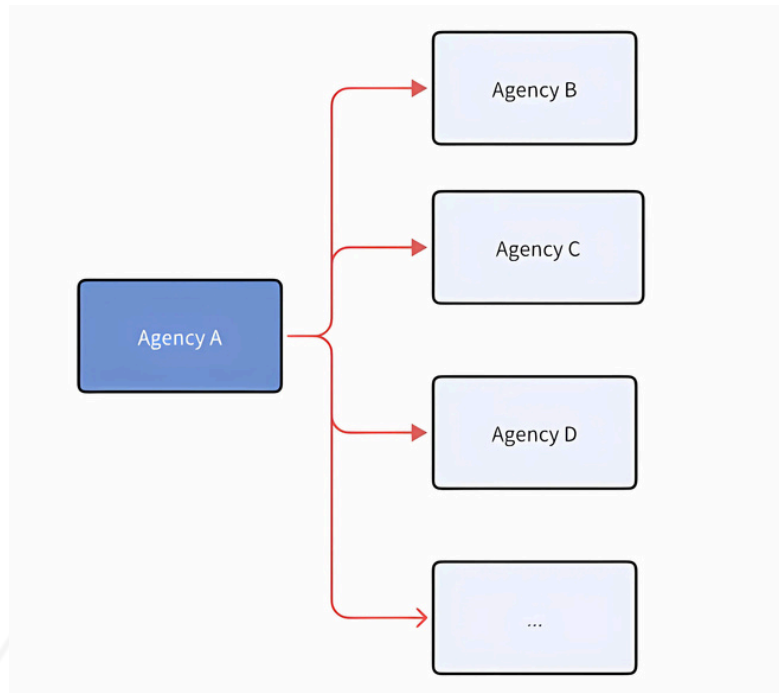

Basic Commission from Hosts:

- **Basic Commission** = Host Basic Income × Commission Rate
- **Host Basic Income** = Host Gift Income + Host Call Income
- Check the commission rate in the table provided.

Level	Earning (Past 30 days) --Diamonds💎	Earning (Past 30 days) --\$	Commission Rate
D	0-1,990,000	0-199	4%
C	2,000,000-9,999,999	200-999	8%
B	10,000,000-49,999,999	1000-4999	12%
A	50,000,000-149,999,999	5000-14999	16%
S	150,000,000+	15000+	20%

Today's commission rate will be determined by the **past 30 days host earning**
For example, today your commission rate is 20%
Your host receive gift value 100k coins
the host will receive 100k*65%=65k diamonds
At the same time, as agent, you will receive
100k*15%=15k diamonds
65k*20%=13k diamonds -- agency commission

Valid Income = All Hosts' Basic Income + All Agencies' Self Income

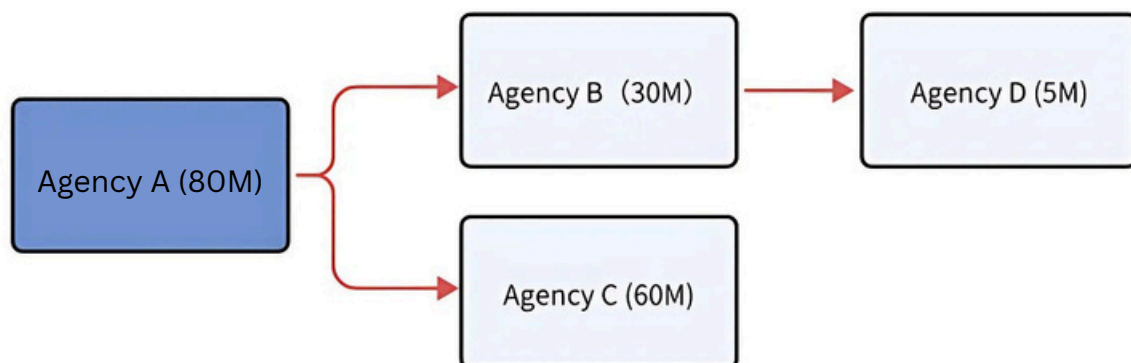

1.2 Commission from your invited agency:

Formula:

Your commission from Sub Agency = Sub Agency [Host Basic Income] * {Your [commission rate] - Sub Agency [commission rate]}

Example:

Agency "A" invited Agency "B" & Agency "C"

Then, Agency "B" invited Agency "D"

- Agency "A" = 50M
- Agency "B" = 30M
- Agency "C" = 60M
- Agency "D" = 5M

*(50M/30M/60M/5M) shows the total host income under one's agency.

Agency "A" [valid income] = $50M + 30M + 60M = 140M$

Agency "A" [commission rate] = 16%

Agency "B" [valid income] = $30M + 5M = 35M$

Agency "B" [commission rate] = 12%

Agency "C" [valid income] = 60M

Agency "C" [commission rate] = 16%

Agency Commission "A" = $50M * 16\% = 8M$

Agency Commission "B" [Subagency] = $30M * (16\% - 12\%) = 1.2M$

Agency Commission "C" [Subagency] = $60M * (20\% - 20\%) = 0M$

A's Total Commission = $8M + 1.2M = 9.2M$
